

CHATTANOOGA HIKING CLUB
ASSUMPTION OF RISK/RELEASE LIABILITY

Article 1 of the Club By-laws states that all participants in the Chattanooga Hiking Club's activities shall submit, at the beginning of each activity, the signed Assumption of Risk/Release of Liability statement, as follows:

As a Chattanooga Hiking Club member or guest participating in CHC activities, I voluntarily assume any and all risks related to the CHC activity described below. This includes any costs related to rescue or medical care, with the intention to be legally bound by this assumption. I hereby agree for myself, my family members, my executors and my administrators, to release the CHC from any and all liability for personal injury or property damage related to this activity. I also release every CHC officer, trip organizer, member or guest, as well as any other person, partnership, corporation, organization or association that allows the use of its real or personal property for this activity, from liability.

I understand that as a participant in this activity I am responsible for furnishing my own drinking water and food, any first aid supplies I may require such as special medications together with instructions for their delivery, and to advise the hike leader of any medical condition, such as an allergy, that may result in a medical emergency.

Your I.D. and insurance card should be carried with you, and although not required it is suggested you wear boots or trail shoes with a good tread and bring trekking poles for hiking on uneven trails and water crossings. For your safety, it is also recommended that you carry a whistle, a small flashlight and a small mirror as well as wearing clothing that does not blend in with the current foliage.
